

# Embrapa's Animal Genomics Network and Biotechnology for Economically Important Traits

III Research Cooperation Workshop  
Strategic Research Cooperation on Horticulture and Animal Science  
March 21st to 30th 2013  
Suwon, South Korea

Alexandre Rodrigues Caetano, Ph.D.  
Embrapa Recursos Genéticos e Biotecnologia

Ministério da  
Agricultura, Pecuária  
e Abastecimento

# Embrapa's Animal Genomics

## Network – A little History

- Background (2007):
  - Several projects underway designed to apply genomics tools to seek solutions for general and specific issues to Brazilian animal production systems
    - Carcass and meat quality
    - Endo/ectoparasite resistance
  - Low level of integration between research teams
  - Need to pool and integrate human resources and research infrastructure

Ministério da  
Agricultura, Pecuária  
e Abastecimento

# Embrapa's Animal Genomics Network – A little History

- Funding from 2008-11
  - US\$1.25million start-up + (US\$1.9 million of pre-funded projects)
- Nine Research Units and 10 Universities and National Research Institutions
- >80 Research Scientists

Ministério da  
Agricultura, Pecuária  
e Abastecimento

# Embrapa's Animal Genomics Network – A little History

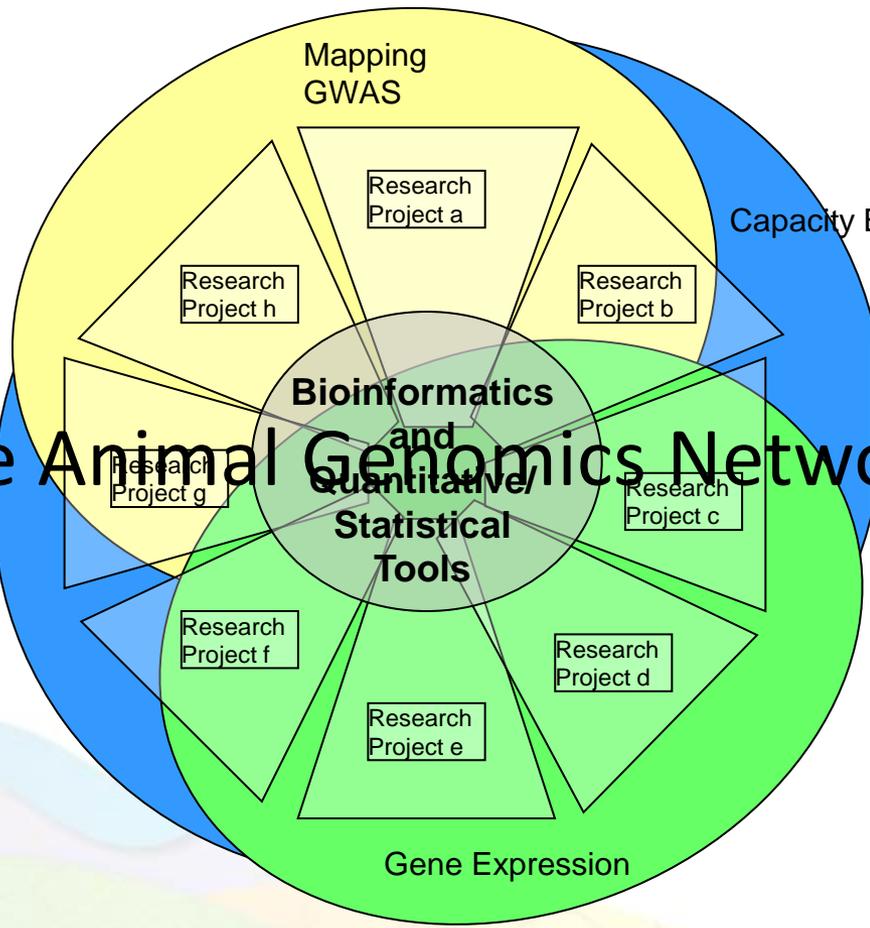

- Major Objectives
  - Create solid environment for multi-disciplinary research teams to interact to work on current research challenges
    - Experimental design, collection of phenotypes and biological samples
    - Molecular data generation
    - Data analysis
  - Establish groundwork for designing new, higher challenging projects

Ministério da  
Agricultura, Pecuária  
e Abastecimento

# The Animal Genomics Network

- Multidisciplinary expertise to use and apply core tools and methods
- High complexity experiments with data and samples already collected
- New research tools and methods

- Increased efficiency in research activities lowering costs and increasing outputs
- Access to new technological tools and platforms
- Establishment of a positive synergistic collaborative research environment

Ministério da  
Agricultura, Pecuária  
e Abastecimento

# External Funding
